INDEX OF AUTHORS

BIRKY, C. W. Jr 1

CHAMBERS, T. J. 61
CHEN, B. D.-M. 147
COOK, P. R. 189
COWIN, P. 41

DAVID, C. N. 111, 133
DUSCHL, G. 111, 133

FORRESTER, J. V. 93
FULLER, K. 61

GARROD, D. 41
GOLINSKA, K. 25

HENNIS, A. S. 1
HOWES, E. A. 83

KUHN, C. III 147

LACKIE, J. M. 93
LEE, E. C. 167
LEECH, C. A. 17
LIN, H.-S. 147

MATTEY, D. 41
McCOY, J. P. Jr 167
McCREADY, S. J. 189
MURAKAMI, K. 73

REYNOLDS, C. R. 197

SITU, R. 167
SMITH, P. J. S. 83
SUMNER, A. T. 177

TANABE, K. 73
TEDESCHI, H. 197
THOMSON, B. M. 61

VARANI, J. 167

WEIJER, C. J. 111, 133

INDEX OF SUBJECTS

Axon
of insect connective, effect of glial toxin on protein synthesis: SMITH & HOWES 83

Bone resorption
by osteoclasts, effect of substrate composition: CHAMBERS, THOMSON & FULLER 61

Cell adhesion
in epithelial cells, desmosomes: COWIN, MATTEY & GARROD 41
of leucocytes under flow: FORRESTER & LACKIE 93
Cell cycle of *D. discoideum*
a revision: WEIJER, DUSCHL & DAVID 111
cell-type proportioning and cell sorting: WEIJER, DUSCHL & DAVID 133
Cell division
in *Olisthodiscus*, partitioning of chloroplasts: HENNIS & BIRKY 1
Cell motility
of murine tumour cells stimulated by laminin: SITU, LEE, MCCOY & VARANI 167
Cell sorting
in *D. discoideum* cell cycle: WEIJER, DUSCHL & DAVID 133
Central nervous system
cells of cockroach, effects of ethidium bromide: LEECH 17
Chloroplasts
partitioning at cell division in *Olisthodiscus*: HENNIS & BIRKY 1
Chromosome banding
distribution of protein disulphides and sulphydryls: SUMNER 177
Chromosome structure
distribution of protein sulphydryls and disulphides: SUMNER 177
Cockroach
CNS cells, effect of ethidium bromide: LEECH 17
Collagenase
in bone resorption by osteoclasts: CHAMBERS, THOMSON & FULLER 61
Colony-stimulating factor
internalization by mouse peritoneal exudate macrophages: CHEN, KUHN & LIN 147

Desmosomes
surface components and inhibition of formation: GOLINSKA 25
Dictyostelium discoideum
revision of cell cycle: WEIJER, DUSCHL & DAVID 111
cell-type proportioning and cell sorting: WEIJER, DUSCHL & DAVID 133
Dileptus
experimental cell size reduction: GOLINSKA 25
DNA repair
at the nuclear cage: MCCREADY & COOK 189

Epithelial cells
desmosomes and desmocollins: COWIN, MATTEY & GARROD 41
Ethidium bromide
effects on cockroach CNS cells: LEECH 17

Flow conditions
effect on adhesion of neutrophil leucocytes: FORRESTER & LACKIE 93
Fluorometry
study of *D. discoideum* cell cycle: WEIJER, DUSCHL & DAVID 111

Glia
toxin effect on protein synthesis in insect connective: SMITH & HOWES 83

Internalization
of colony-stimulating factor by mouse peritoneal exudate macrophages: CHEN, KUHN & LIN 147

Laminin
stimulation of cell motility: SITU, LEE, MCCOY & VARANI 167
Leucocytes
neutrophil, adhesion under conditions of flow: FORRESTER & LACKIE 93

Membrane potential
of mitochondria of *Toxoplasma gondii* after invasion of host cells: TANABE & MURAKAMI 73
Microtubule number
diminution, after cell size reduction in *Dileptus*: GOLINSKA 25
Mitochondria
of *Toxoplasma gondii* after invasion of host cells: TANABE & MURAKAMI 73

Na-pump
in cockroach CNS cells: LEECH 17

Nuclear cage
site of DNA repair of ultraviolet light-induced lesions: MCCREADY & COOK 189
Nuclear envelope
role in mammalian cells: REYNOLDS & TEDESCHI 197
Nuclei
mammalian, permeability *in vivo* and *in vitro*: REYNOLDS & TEDESCHI 197

Olisthodiscus
partitioning of chloroplasts at cell division: HENNIS & BIRKY 1
Organelles
microtubular, size reduction in *Dileptus*: GOLINSKA 25
Osteoclasts
of rabbit, bone resorption, effect of substrate composition: CHAMBERS, THOMSON & FULLER 61

Parasitic protozoa
mitochondrial membrane potential: TANABE & MURAKAMI 73
Permeability
of mammalian cell nuclei *in vivo* and *in vitro*: REYNOLDS & TEDESCHI 197
Protein
synthesis in insect connective, effect of glial toxin: SMITH & HOWES 83
Protein disulphides
and chromosome banding: SUMNER 177
Protein sulphydryls
and chromosome banding: SUMNER 177

Receptor
-mediated binding of CSF-1 by mouse peritoneal exudate macrophages: CHEN, KUHN & LIN 147
Rhodamine 123
in study of *Toxoplasma gondii* mitochondria after invasion of host cells: TANABE & MURAKAMI 73

Size reduction
in microtubular organelles of *Dileptus*: GOLINSKA 25

Toxoplasma gondii
mitochondrial membrane potential after invasion of host cells: TANABE & MURAKAMI 73
Tumour cells
motility stimulated by laminin: SITU, LEE, MCCOY & VARANI 167

Unscheduled DNA synthesis
at the nuclear cage: MCCREADY & COOK 189
